In the version of this Article originally published, Fig. 7(f) was confused with Fig. 4(f). The corrected version of Fig. 7 is provided below. This graphical amendment does not affect the analyses, and additional text corrections are not needed.

Fig. 7 Polarized optical photomicrographs and radial growth rate of spherulites of PLLA and its composites crystallized isothermally at 140 °C when the processing temperature is 230 °C. (a) PLLA, (b) PLLA/HA, (c) PLLA/HA-g-PLLA, (d) PLLA/PDLA, (e) PLLA/HA/PDLA, (f) PLLA/HA-g-PDLA, (g) radial growth rate of spherulites.
